SYNAPSE STOCKS: AI-POWERED STOCK INTELLIGENCE PLATFORM PROJECT OVERVIEW DOCUMENT

Welcome to SynapseStocks

A full-stack, agentic AI platform built to help investors and analysts decode the stock market with clarity and confidence.

Whether you're tracking financial trends, climate impact, or social sentiment, SynapseStocks empowers you with explainable, multi-factor insights through:

- Modular AI agents tailored to different sectors
- A sleek, responsive dashboard built with React and Material-UI
- Secure JWT-based authentication
- A clean monorepo structure for easy development and deployment

This project is ideal for developers, data scientists, and financial analysts looking to explore intelligent market analysis tools in a demo or educational setting.

SYNAPSE STOCKS: AI-POWERED STOCK INTELLIGENCE PLATFORM PROJECT OVERVIEW DOCUMENT

Project Overview: SynapseStocks

SynapseStocks is a smart, full-stack AI platform built to help investors and analysts make better stock trading decisions. At its core, it brings together modular AI agents, a clean and intuitive dashboard, and secure user authentication—all designed to deliver clear, multi-factor insights into the market.

Whether you're tracking financial trends, climate impact, or social sentiment, SynapseStocks gives you a flexible and explainable way to understand what's driving stock movements.

What We're Solving

- Making complex market data more digestible and actionable
- Offering plug-and-play AI agents that adapt to different sectors
- Ensuring secure access to sensitive insights with JWT authentication
- Streamlining development with a clean monorepo structure

What Makes It Stand Out

- **Insightful Agent Cards:** Get real-time updates from agents that analyze News, Financials, Chemical Prices, Climate, Social Sentiment, and Regulatory factors
- **Modular Backend:** Easily add or tweak agents to suit your needs—no heavy lifting required

SYNAPSE STOCKS: AI-POWERED STOCK INTELLIGENCE PLATFORM

PROJECT OVERVIEW DOCUMENT

- **Secure Login:** Built-in JWT authentication keeps your data safe and sessions secure
- **Modern UI:** A responsive dashboard built with React and Material-UI for a smooth user experience
- **Smart API Config:** Environment-aware setup makes switching between dev and production a breeze

Tech Stack at a Glance

Layer	Tools & Frameworks
Frontend	React, Material-UI
Backend	Node.js, Express, lowdb
AI Agents	Modular, pluggable, sector-aware logic
Auth	JWT-based secure authentication
Structure	Monorepo with client/ and server/

Project Structure

SynapseStocks/

- └── client/ # React frontend (dashboard, login, agent config)
- └── server/ # Node.js backend (API, agents, auth, db)
- └── README.md # Project documentation

Getting Started

To get started, follow these steps:

1. Clone the repo
git clone https://github.com/Cognizant-SPE/vibe-coding-synapsestocks.git
2. Set up the backend
cd server && npm install && cp .env.sample .env && npm run dev

SYNAPSE STOCKS: AI-POWERED STOCK INTELLIGENCE PLATFORM

PROJECT OVERVIEW DOCUMENT

3. Set up the frontend

```
cd ../client && npm install && cp .env.sample .env && npm start
```

Collaboration & Licensing

We welcome contributions! Feel free to fork the repo, open issues, or submit pull requests. For more details, check out the README files in both client/ and server/.

This project is intended for demo and educational purposes. Please refer to the LICENSE file for more information.
